83 Street

- » Starting in April, the service road on the east side of 83 Street from 69 A Avenue to 76 Avenue will be permanently removed.
- » Work will begin on the 76 Avenue intersection this Spring. Traffic will be shifted north and south throughout construction.
- » 83 Street from 76 Avenue to 82 Avenue will be shifted to the west side of the road while crews work on the east side. Once the east side is complete traffic will shift again while crews work on the west side.
- » New sidewalks and roads will be constructed this Spring on both sides of 83 Street between 69 A Avenue and 82 Avenue.

Davies Station

- » The elevated guideway piers for Davies Station are already well underway and will be completed in early 2018.
- » Elevated guideway sections will be built and placed in 2018.
- » Foundations and footings will be complete in early 2018 to support the completion of the elevated platform and track slab for the station.

75 Street

- » The current work on the west side of 75 Street will be completed in late Spring. North/south traffic will shift to the west side of the road from Wagner to McIntyre once this is complete.
- » Once traffic is shifted to the west side, work will begin on the permanent northbound lanes. This work will close McIntyre Road on the east side in late Spring.
- » In late spring, lanes on 75 Street from Wagner Road to south of the CN train tracks will open completely.

Operations and Maintenance Facility (OMF)

- » The OMF building will really start to come to life this year as the building exterior will begin to form. The building's frame is already in place and in 2018 crews will be putting up walls and a roof.
- » The TPSS building at the OMF is on schedule and will be installed in Spring.
- » Track will be installed this year in preparation for the arrival of the Light Rail Vehicles.

Gerry Wright Operations and Maintenance Facility construction progress as of February 2018

Whitemud Overpass

- » In Spring, the Whitemud bridge girders will be erected. This will occur over two weekends, closing Whitemud Drive in off-peak hours from Friday night to Monday morning.
- » Traffic will be diverted onto the off ramps in both east and west directions.
- » Once the girder erection is complete, both of the off/on ramps on the east side of the overpass will close for approximately 6 months.
- » The Shared Use Path portion of the bridge will be built this year.
